Hi Editors,

Welcome to the trial edit! Please read the instructions below carefully before you begin.

1. Downloading the Files

- **Both the Main Video Footage and the Tutorial Video are provided as Torrent files** (links below). You will need a torrent client such as **qBittorrent**, **BitTorrent**, or **uTorrent** to download them.
- Download and watch the **Tutorial Video** first, as it walks you through our exact editing and audio setup.

2. Audio Setup & Dual-Language Workflow

The **Tutorial Video** explains both our audio channel setup and **how to separate the single raw footage into two separate video edits (Hindi and Malayalam)**.

Quick Workflow Summary:

- **Audio Tracks:** When you drop the raw footage onto your timeline, you will see **two audio tracks**:
    - **Track 1:** Contains the audio for **both people's mics** (separate these into individual channels as shown in the tutorial).
    - **Track 2:** Internal camera audio—**delete this track completely**; do not use it in your edit.
- **Backup Audio (**.wav**):** If you find a .wav file inside the folder, it is Arjun MP's separate safety mic recording. If the main DJI mic cuts out at any point, use your editing software's **Synchronize** function to align and use the .wav backup track.
- **Dual-Language Separation:** Follow the tutorial's exact workflow to split the single raw footage into **two distinct final videos—one in Hindi and one in Malayalam—edited simultaneously**.
- **J-Cut Pacing:** The entire timeline must be edited using **J-cuts throughout**, with **no sections missed**. Keep the audio transitions overlapping smoothly across every cut from start to finish.

3. Editing Guidelines & Software

- **Software:** You are free to use any desktop editing software (Premiere Pro, DaVinci Resolve, Final Cut Pro, etc.). **Mobile editing apps are not recommended**, as revisions and fine-tuning take too long.

- **Quality Standard:** Check the reference videos and main channels linked below. Both your Hindi and Malayalam edits must match—or exceed—the quality, pacing, and style of our current uploads.
- **Final Cut Only:** Submit **complete, upload-ready final videos** for both languages—including sound effects (SFX), background music (BGM), zooms, pacing, and your own creative touch. **Rough cuts, half-edits, or short sample clips will be automatically rejected.**

4. Deadline & Payment Terms

- **Submission Deadline: 23rd of this month**
- **Compensation:** If your edit is selected and uploaded to our YouTube channel, you will be paid **₹7,000**, and we will send you the next project.
- **Monthly Bonus:** Editors who complete **10 videos in a month** will receive an additional performance bonus.
- **Dedicated Projects:** Once you prove the quality of your work, future videos will be assigned exclusively to you (not shared with multiple trial editors), with payment released upon final delivery and upload.

5. Submission & Links

Once both the Hindi and Malayalam versions are complete, please submit your final outputs via the Google Form linked below.

Google Form Submission Link: https://forms.gle/4RPKtaTu3FySWRQK9

Main Video Torrent File Link: 10 ITEMS ROHAN (55.43 GB): http://189.72.158.95:8080/file/rohan

Tutorial Video Torrent File Link: Tutorial Video (3.34 GB)**:** http://189.72.158.95:8080/file/tutorial
